

## PRIVATE FLIGHT EYEWITNESS STATEMENTS

One reason it has been so hard for the truth to prevail is that people, understandably, do not want to be dragged into it. In respect for their privacy, here are quotes from the three eyewitness accounts with names redacted.

### LETTER 1

***"From the trip, I have no memory of anything inappropriate happening nor was I aware of anything happen during the flight, nor would I ever think it possible something of that nature could happen.***

██████████

### LETTER 2

***"I do not recall anything happening on that flight. I have no recollection of any conversation that took place or any inappropriate behavior. I do not remember any exchange that happened between [she] and James at that time and was not made aware of anything after the event was over. [She] had never expressed to me any discomfort she felt in her relationship with James. I traveled with both of them to many different places and never recall seeing any inappropriate comments or behavior take place."***

### LETTER 3

***"I was sitting in a single seat facing the three on the back row. James and i had both been awake since 4am. James fell asleep pretty quickly, He was next to [her] but i do not remember an advance being made toward her. Having been made clearly aware of the moral fences by which Harvest holds to, there was nothing on the flight that made me think that a line had been crossed... I remember feeling exhausted but was awake for most of the flight. Upon arrival i remember everyone being in good spirits about the uniqueness and excitement of the day. We arrived home around 1am. [she] served in our church for many years and remained on the worship team for a number of those, doing so willingly on stage with myself and James - and I never heard anything after the flight about an offense being made toward her."***
